CORALIS Dissemination

Event

Industrial Symbiosis: business enablers and technology drivers

14/10/2021

14:00 - 16:00 CEST

Online

The dissemination event provides examples and good practices for industries, SMEs and companies on how to enable the implementation of the industrial symbiosis while boosting finance and investments. It will present business cases which could help unlocking a considerable amount of energy/cost savings and assist industries and companies in achieving their energy and business objectives.
